PAGE Earns Top Workplace Designation

ATLANTA – March 19, 2021 – For the second consecutive year, the Professional Association of Georgia Educators (PAGE) has been designated a Top Workplace by The Atlanta Journal-Constitution.

PAGE earned the title as a result of stellar rankings by employees in an anonymous third-party survey designed to measure top drivers of engaged workplace cultures. In each category surveyed – company vision, leadership, job satisfaction, and more – PAGE staff rated the organization as exceptional.

“PAGE earned recognition as a top workplace because of excellent people who enjoy helping others,” said Executive Director Craig Harper. “We take care of one another and our members like family. And, while this past year has brought enormous challenges, it has also brought great reward – as the PAGE family has supported one another and the exceptional teachers and school staff we serve every day.”

Visit <https://www.ajc.com/top-workplaces/> to learn more about the Top Workplaces program and access the full list of 2021 honorees.

The Professional Association of Georgia Educators (PAGE) is the state’s largest independent educator association – serving more than 95,000 teachers, administrators, and school personnel.
