

INTRODUCING ENGAGE ACADEMY

A PAGE PROFESSIONAL LEARNING EXPERIENCE

The Professional Association of Georgia Educators introduces **ENGAGE ACADEMY** — a professional learning experience that empowers educators to transform schools and classrooms into engagement-focused environments where students thrive and teachers excel.

A fully collaborative, transformational experience, **ENGAGE ACADEMY** blends innovation with real-world, real-time application. Within each **ENGAGE ACADEMY** session, facilitators provide the strategies, tools, and conceptual framework to guide participants as they become co-creators of their own engagement-focused solutions.

ENGAGE ACADEMY cohorts are forming now. PAGE welcomes teachers, academic/instructional coaches, college professors and others currently teaching in a Georgia school or college. **School teams are encouraged.** Pre-service college of education students may also attend. Through **ENGAGE ACADEMY** you will acquire vital skills and practical knowledge to transform teaching and learning in your classroom, your school, and beyond.

ENGAGE ACADEMY Outcomes:

- Gain a holistic understanding of students' needs and their varied motives for learning
 - Design meaningful, engaging work across departments, grade levels, and teams
 - Extend engaging work from your classroom to your school as you develop skills for building effective relationships and two-way communications
 - Learn to leverage essential resources (information, time, people, space, and technology) to fully implement meaningful work
-

Registration Information: There is no registration fee for the Engage Academy and all resources are provided. **PAGE members will be reimbursed for mileage and substitutes.** A certificate of completion will be provided for those completing all sessions. If there are no cohort locations within reasonable driving distance from your area, please inquire. PAGE is willing to create additional cohorts if there is sufficient interest. In the event that face-to-face meetings are not possible, there will be an alternative virtual session available, with online learning and interaction with the presenters.
