PAGE Garners Top Workplace Designation for Third Consecutive Year

ATLANTA – March 10, 2022 – For the third consecutive year, the Professional Association of Georgia Educators (PAGE) has been named a Top Workplace by The Atlanta Journal-Constitution.

PAGE earned the Top Workplaces title as a result of stellar rankings by staff in an anonymous third-party survey designed to measure top drivers of engaged workplace cultures – company vision, leadership, job satisfaction, and more.

Of the more than 4,500 Top Workplaces 2022 participants, PAGE ranked 18th in the “small companies” category (less than 150 employees). The organization also received special recognition for work / life availability. Learn more [here](#).

“PAGE continues to earn recognition as a top workplace because of our shared passion for the work that we do and the educators we serve,” said PAGE Executive Director Craig Harper. “We love what we do, and that shows. Throughout the many challenges of the last several years, we’ve taken care of each other and our members like family. We do our best every day. We keep moving forward – and we do so together.”

Visit <https://www.ajc.com/top-workplaces/> to learn more about the Top Workplaces program and access the full list of 2022 honorees.

As the largest independent educator association in the state and nation, the Professional Association of Georgia Educators (PAGE) exists to support our members who serve in every Georgia public school. PAGE provides unparalleled legal coverage, legislative advocacy, professional learning, grants, and scholarships. PAGE honors and encourages educational excellence through student programs including Student Teacher Achievement Recognition (STAR), Future Georgia Educators (FGE), Georgia Academic Decathlon (GAD), and PAGE Academic Bowl for Middle Grades.
